This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

**Recommendations (optional):** In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

It is recommended that this company adhere to PCI and GDPR and be promptly addressed as *Botium Toys* accepts online payments and is expanding to offer services and handle the data of customers abroad including the European Union. The SOC1 and SOC2 are non-existent with this company. *Botium Toys* needs to address gaps in implementation such as Least Privilege, Separation of Duties, and Encryption. It is also necessary that the company properly classify assets, and identify additional controls to improve their security posture. This company needs to strengthen password

requirements for users (e.g., at least eight characters, a combination of letters, and at least one number; special characters).
